EDUCATION

MCT's Rajiv Gandhi Institute of Technology Bachelor in Electronic and Telecommunications GPA: 7.9	Mumbai, India December 2021-June2025
Kendriya Vidyalaya AFS Thane HSC Percentage: 89.4%	Thane, India July 2019 - May 2021

WORK EXPERIENCE

SOFTWARE DEVELOPER ENGINEER CAPGEMINI	JUL 2025 – PRESENT
- Fresher SDE contributing to enterprise software development projects - Applying AI-first development approach — prompt engineering, agentic workflows and vibe coding - Completed Capgemini OCEAN certifications in Generative AI, Agentic AI and Prompt Engineering	
ARTIFICIAL INTELLIGENCE INTERN INFOSYS	OCT 2025 - JAN 2026
- Developed trend forecasting models using LSTM in Python, improving predictive analytics accuracy by 15%. - Streamlined data preprocessing workflows, reducing processing time by 20%. - Collaborated with cross-functional virtual teams to deliver data-driven insights for strategic decision-making.	
FRONT-END DEVELOPER INTERN QUICKFASH	MAR 2023 - SEPT 2023
- Developed front end of multi-vendor e-commerce app using React. - Implemented responsive design with Bootstrap, HTML, CSS, and JavaScript. - Collaborated in team to enhance UI/UX and functionality.	

PROJECTS

Seju Chinese House — Food Ordering App	2026
- Built and deployed a live food ordering platform for a real Chinese restaurant — owner uses it daily with 100+ orders placed through the app every day - Developed end-to-end with cart management, menu browsing and order placement; optimised for mobile-first experience and fast load times - Tech Stack: React · Node.js · Vercel	
MailScout — AI-Powered Email Tool	2026
- Built an AI-powered email productivity tool that helps users scout, draft and manage emails faster with intelligent suggestions - Tech Stack: React · AI APIs · Vercel	
Sherise App — Women-Focused Lifestyle App	2026
- Developed a lifestyle and wellness app for women with a focus on empathetic UX, clean design and smooth navigation Implemented responsive layouts and intuitive user flows ensuring a seamless experience across all screen sizes - Tech Stack: React · Supabase. SQL. Vercel	
AI Chatbot for Appointment Booking & Auto Review System	2025
- Developed an AI chatbot for a dentistry clinic that automates appointment scheduling and triggers customer review requests on appointment completion - Tech Stack: Voiceflow · Make · Airtable · Botpress	

SKILLS SUMMARY

- **Languages:** Python, SQL, C++, Javascript, Html, CSS
 - **Full Stack:** React ·Next.js · Tailwind CSS· Bootstrap ·Node.js · Express.js· REST APIs ·Redux · MongoDB· PostgreSQL ·Firebase · Supabase
 - **AI & Vibe Coding** Prompt Engineering ·Agentic AI · Generative AI· LLMs ·RAG · Claude Code· OpenAI API ·ElevenLabs · Twilio· Voiceflow
 - **No-Code Tools:** Bubble, Airtable, Make, Zapier, Card, Botpress, Vapi, Retell AI
 - **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code, Github, Antigravity IDLE
 - **Soft Skills:** Rapport Building, Strong Stakeholder management, Excellent communication
-
